

# Pesticide Education Resources for Health Care Providers: Submit Ideas by August 16, 2021

The Pesticide Educational Resources Collaborative - Medical (PERC-med) continues to educate the medical community on how to prevent, recognize and treat pesticide-related health conditions. The PERC-med Advisory Board supports PERC-med's pursuit to develop products around priority topics such as chronic exposures, differential diagnosis support, reporting requirements, prevention and treatment. PERC-med invites your ideas for new pesticide-related educational resources to serve the needs of medical providers across the country. Your ideas will be considered by the PERC-med Advisory Board.

Resources might include recorded webinars, brochures, fact sheets, infographics, posters, videos, manuals, mobile apps or other online accessible tools, and/or other novel approaches to meet the pesticide education needs of health care providers. Such materials should aim to provide practical information to help healthcare providers prevent, recognize, and treat pesticide-related illnesses and injuries. PERC-med's current project status is listed on our website (<http://pesticideresources.org/med/status.html>), along with a curated set of currently available resources (<http://pesticideresources.org/med/resources/index.html>).

Please submit your project idea(s) either [online](#) or email this form to [PERC-medsupport@ucdavis.edu](mailto:PERC-medsupport@ucdavis.edu) no later than **August 16, 2021** to have it considered by the PERC-med Advisory Board. This is not a funding solicitation, but a gathering of input on resources that are needed by health care providers.

---

About PERC-med: PERC-med is funded by a 5-year cooperative agreement (#X-83935901) between the U.S. EPA and the University of California Davis Extension, in cooperation with Oregon State University. It supports the development of resources, technical assistance, and materials for healthcare providers to prevent, recognize and treat pesticide-related illnesses.

**\* Required**

1. What is your name? \*

---

2. What is your email address? \*

---

3. What is your affiliation (employer or organization)? \*

---

4. Would you like to collaborate on developing materials for the idea you are submitting for consideration? \*

*Mark only one oval.*

- Yes, I am interested in collaborating with PERC-med.
- No, I want PERC-med to develop the resource that I'm proposing.

*Skip to question 5*

So you want to work with PERC-med on a project...

5. Have you already started working on your proposed material? \*

*Mark only one oval.*

- Yes *Skip to question 8*
- No

Down to business...

6. Please describe your idea in as much detail as possible (i.e., What is it? What is it about?) \*

---

---

---

---

---

Wrapping up...

7. Are you ready to submit your proposal? \*

If not, please revisit your answers until you're ready to submit. Thank you for contacting PERC-med. Submissions will be reviewed by the PERC-med Advisory Board.

Mark only one oval.

Yes

So you're working on a project...

8. What are you working on? \*

---

---

---

---

---

9. Who is involved? \*

---

---

---

---

---

10. How would you like PERC-med to help? \*

Check all that apply.

I want PERC-med to help find reviewers for the new material.

I want PERC-med to help promote the new material.

I want PERC-med to help distribute the new material.

Other:  \_\_\_\_\_

11. Tell us about the project's timeline, please. What do you expect to have done, by when? \*

---

---

---

---

---

12. What else would you like to tell us about the new material, or the project, or the team? \*

---

---

---

---

---

13. Are you ready to submit your proposal? \*

If not, please revisit your answers until you're ready to submit. Thank you for reaching out to PERC-med. Submissions will be reviewed by the PERC-med Advisory Board.

*Mark only one oval.*

Yes

If you need assistance, please contact [PERC-medsupport@ucdavis.edu](mailto:PERC-medsupport@ucdavis.edu).
