

## EPA Programmatic Conditions for 2023 AgCBP RFA

PERC 2.0 Grant – X8-4019401-0

The purpose of this 5-year cooperative agreement awarded under this program is to ensure the safety of chemicals in the marketplace by developing and managing projects in support of safe pesticide use and implementation of the agricultural Worker Protection Standard (WPS) and the Certification of Pesticide Applicators (CPA) regulations. Projects can be materials development, outreach activities, technical assistance, training and education, or other program or activity. The target audience of projects includes people who are occupational users of pesticides; people who work where pesticides are used; regulators and the regulated community; educators and trainers; and others affiliated with pesticide occupational use and pesticide safety activities. Also, the award recipient will administer subawards to nonprofit organizations for community-based projects (CBPs). The number and amount of subaward funding will vary depending on the amount of funds awarded for the cooperative agreement each programmatic year.

The recipient and any sub-recipient must comply with the following programmatic conditions:

1. Meals and Refreshments:

Unless the event(s) and all of its components (i.e., receptions, banquets and other activities that take place after normal business hours) are described in the approved workplan, the recipient agrees to obtain prior approval from EPA for the use of grant funds for light refreshments and/or meals served at meetings, conferences, training workshops, and outreach activities (events). The recipient must send requests for approval to the EPA Project Officer and include: (1) An estimated budget and description for the light refreshments, meals, and/or beverages to be served at the event(s); (2) A description of the purpose, agenda, location, length and timing for the event; and (3) An estimated number of participants in the event and a description of their roles. Recipients may address questions about whether costs for light refreshments, and meals for events are allowable to the recipient's EPA Project Officer. However, the Agency Award Official or Grant Management Officer will make final determinations on allowability. Agency policy prohibits the use of EPA funds for receptions, banquets and similar activities that take place after normal business hours unless the recipient has provided a justification that has been expressly approved by EPA's Award Official or Grants Management Officer. Note: U.S. General Services Administration regulations define light refreshments for morning, afternoon or evening breaks to include, but not be limited to, coffee, tea, milk, juice, soft drinks, donuts, bagels, fruit, pretzels, cookies, chips, or muffins. (41 CFR 301-74.11)

2. Performance Reports: In accordance with 2 CFR 200.328(a) and (b), the recipient agrees to include in performance reports submitted under this agreement brief information on each of the following areas: 1) a comparison of actual accomplishments with the anticipated outputs/outcomes specified in the assistance agreement work plan; 2) reasons why anticipated outputs/outcomes were not met, and 3) other pertinent information, including, when appropriate, analysis and explanation of cost overruns or high unit costs. Reports will also include a discussion of expenditures, along with a comparison of the percentage of the project completed to the project schedule, and an explanation of significant discrepancies. Performance reports will be submitted quarterly, within thirty (30) days

after the end of each quarter. Electronic format is appropriate for these reports. In accordance with 2 CFR 200.328(d), the recipient agrees that it will notify EPA of problems, delays, or adverse conditions which materially impair the ability to meet the outputs/outcomes specified in the assistance agreement.

3. Substantial Federal Involvement: The anticipated substantial Federal involvement will include: (1) Close monitoring of the successful applicant's performance to verify the results proposed by the applicant; (2) Collaboration during performance of the scope of work; (3) In accordance with 2 CFR 200.317 and 2 CFR 200.318, review of proposed procurement(s); (4) Reviewing qualifications of key personnel (EPA will not select employees or contractors employed by the award recipient); (5) Review and approval of the substantive terms of subaward agreements; and (6) Review and comment on reports prepared under the cooperative agreement (the final decision on the content of reports rests with the recipient).
